DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 9, and 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Wishnefsky.

The Wishnefsky reference discloses a toothbrush comprising a head 10, bristles 12, a neck 13, a handle part 14, a container holder 22, a toothpaste container 18, and latching engagement/protuberances (15, 20).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 7, 8, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wishnefsky in view of Jackson.

The Wishnefsky reference discloses a toothbrush as discussed supra, but does not disclose a pin/spike to seal the toothpaste container. However, attention is directed

Application/Control Number: 10/705,931

Art Unit: 3751

to the Jackson reference, which discloses a similar toothbrush including a pin/spike 17 to seal the toothpaste container when not in use. It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ a pin/spike on the Wishnefsky toothbrush in view of the teachings of Jackson to seal the toothpaste container when not in use.

Claims 11, 17, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wishnefsky in view of Voigt.

The Wishnefsky reference discloses a toothbrush as discussed supra, but does not disclose athat the toothpaste container is translucent with a scale. However, attention is directed to the Voigt reference, which discloses a similar toothbrush including a translucent toothpaste container 72 with a scale 74 so that the user can easily determine the amount of toothpaste remaining. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the Wishnefsky toothpaste container to be translucent and have a scale in view of Voigt so that the user can easily determine the amount of toothpaste remaining.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T deVore whose telephone number is (703) 306-5481. The examiner can normally be reached on Monday to Friday.

Application/Control Number: 10/705,931 Page 4

Art Unit: 3751

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Huson can be reached on (703) 308-2580. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
